FOREIGN MARKETS DULL

Time and Call Money Was a Trifle Easier-Sterling Exchange Declined-Bonds Dull, but Generally Stronger.

Stocks underwent further improvemen yesterday in a narrow and highly profes-sional market. Activity was confined to comparatively few issues. From a dull opening, however, trading gained in anination and the whole list closed strong, chiefly on short covering.

Foreign markets were dull and without feature. London sent prices for Americans slightly changed and foreigners were reported as buyers on balances. News developments were meagre and inconclusive. Staple commodity prices were variably changed.

Call money touched 4% per cent, but ruled easier at about 4% per cent. Time noney was a shade easier, ruling at 5 to 5% for short periods and at 5 per cent for six months. Demand sterling declined to 26 BROADWAY, NEW YORK. 4.8535. Government bonds were firmer. Capital, \$2,500,000. Surplus, \$2,500,000. Railway and miscellaneous bonds were quiet but a trifle better.
